

AVL DiTEST technical partner of the Ennstal-Classic

A free exhaust analysis and ignition voltage check-up for your classic car.

The AVL DiTEST test station offers you again the opportunity to be informed about the ignition voltage and exhaust emission characteristics of your classic cars. With our state-of-the-art diagnostic systems your classic car will be evaluated in an optimal way. Our specialists are already looking forward to your lively interest again.

With our analysis you get information about:

- the current status of the fuel-mixture generation
- the aligned optimal engine power deployment
- the stability of the engine
- the current status of the ignition system

Apply for free exhaust emission test and ignition voltage check-up now!

For a free exhaust composition analysis and ignition voltage check at the Ennstal-Classic 2023 technical entry procedure. Please send your reply by **5th of July 2023** to Anna Lienzer:

✉ anna.lienzer@avl.com
